

Bulletin 16-46

FHA 2017 Loan Limits

HUD Mortgagee Letter [2016-20](#) issued December 1, 2016 announced the 2017 loan limits for FHA transactions.

The FHA loan limit for the low-cost area “floor” and the high-cost area “ceiling” have increased. As a reminder, any area where the loan limit exceeds the “floor” is a high cost area. A list of counties with increases is attached for reference (Exhibit A). There were no counties with a decrease for 2017.

The new loan limits apply to case numbers assigned on or after January 1, 2017.

FHA 2017 Loan Limits		
Number of Units	Low-Cost Area Floor	High-Cost Area Ceiling
One	\$275,665	\$636,150
Two	\$352,950	\$814,500
Three	\$426,625	\$984,525
Four	\$530,150	\$1,223,475

To view the FHA mortgage limits by county for 2017 go to [FHA Mortgagee Limits](#) and use the dropdown menu to select the state, enter the county where the property is located, select “*FHA Forward*” as the “Limit Type” and “*CY2017*” for the “Limit Year” and click “Send”.

FHA Mortgage Limits

Welcome to the FHA Mortgage Limits page. This page allows you to look up the FHA or GSE mortgage limits for each jurisdiction. The results page will also include a Median Sale Price value for each jurisdiction. Those are the median price estimates for the metropolitan area, and for the high-price year starting with 2008 and ending in the year just prior to the effective year. Limits when the calculated limit (115% of the median price) is between the national ceiling and floor values for the set of county-level median price estimates for the year just prior to the loan-limits year are available in the dropdown menu.

Detailed [help](#) is available, or send questions to the Single Family Administrator.
