

Bulletin 17-19

IRS Technology Upgrade – UPDATE

The IRS technology upgrade has been rescheduled for Friday, September 8, 2017 through Monday, September 11, 2017. The outage will begin Friday at 7:00 p.m. PST and end Monday at 3:00 a.m. PST.

During the outage, the IRS will **not** process transcript requests however, due to the upgrade being rescheduled for a weekend, transcript delays are **no longer** expected.

Brokers should continue to order transcripts during the IRS system outage; requirements for transcripts will **not** be waived during the outage period. In the event a loan is scheduled to fund and the transcripts have not been received, HomeBridge will consider exceptions on a case-by-case basis.

If you have any questions, please contact your Account Executive.
