Documentation of Income (cont.)

Self-Employed Borrower Requirements

There are two (2) methods for documenting self-employed income.

Method One – One Year’s Tax Return

- Maximum DTI 50%, **no exceptions**
- One (1) year personal and business federal tax returns, including all schedules, that cover a 12 month period of self-employment
- A borrower prepared profit and loss statement/balance sheet covering the time from the end of the time the tax returns covered (a minimum 6 months’ time frame required).
- Income is generally calculated using the tax return and comparing it to the trend on the P&L. The income trend should be stable or positive
- If the income trend is not stable or positive, two years tax returns are required.
- The tax returns provided must cover a 12 month period of self-employment

NOTE: Year-to-date or year-end profit and loss statement and balance sheet required if the Note date is greater than 120 days from the end date of the most recent tax return (if tax return on fiscal year, P&L and balance sheet requirements are based off of fiscal tax return end date).

Method Two: - Two Year’s Tax Returns

- Two (2) years most recent tax returns, both personal and business, including all schedules.
- Income is generally calculated based on a 24 month average if income is increasing and a 12 month average of the most recent year’s returns if income is declining
- Declining income will require an explanation and/or additional documentation from the borrower. A borrower prepared year-end and/or YTD P&L and balance sheet may also be required.

NOTE: Year-to-date or year-end profit and loss statement and balance sheet required if the Note date is greater than 120 days from the end date of the most recent tax return (if tax return on fiscal year, P&L and balance sheet requirements are based off of fiscal tax return end date).

Use of Interim Financials to Determine Qualifying Income

- The borrower may include either year-end or year-to-date financials prepared in accordance with either Method One or Method Two (above) as part of their qualifying income.
- The income will be averaged over the period of the tax returns and the P&L provided
- The borrower must provide the bank statements from their business account for the period covered by the P&L and the bank statements must show deposits which:
 - Are part of the borrower’s income stream, and
 - Total at least 90% of the gross receipts listed on the P&L
- Regardless of the method used above, the following may be added back to the borrower’s income calculation:
 - Depreciation
 - Amortization
 - Pension contributions directly contributed to borrower
 - Any expenses(s) that can be reasonably documented as one-time/non-recurring
 - Net operating loss carryforwards from the years prior to the tax returns provided
 - Business expenses for debts already included in the DTI
 - Business use of home
 - Mileage

- The underwriter must ensure there are no losses from businesses that are not considered
- K-1s reflecting income on the tax return(s) which are not being used to qualify and do not reflect losses are not required

Bank Statement Documentation Eligibility and Summary

Bank Statement

Documentation of Income (cont.)

The following applies to **both personal and business bank statement** options:

- Income that is illegal under local, state, and/or federal law is **not eligible** (including income generated from marijuana dispensaries)

Co-Mingled Accounts

The following applies when the borrower does **not** maintain separate business and personal accounts:

- Co-mingled accounts will be treated as **business accounts** when determining income.

Non-Sufficient Funds (NSFs)

Excessive NSFs will require a written explanation from the borrower. The following applies:

- 12 Months Bank Statements:**
 - Maximum of six (6) **instances*** of NSFs within the past 12 months (detailed written explanation required)
 - Seven (7) or more **instances*** of NSFs within the past 12 months, **the loan is ineligible**
- 24 Months Bank Statements:**
 - Maximum of twelve (12) **instances*** within the past 24 months (detailed written explanation required)
 - Thirteen (13) or more **instances*** NSFs within the past 24 months, **the loan is ineligible**

*NSF "**instances**" are defined as a time period where the account is overdrawn and subsequently brought current (i.e. funds are deposited to bring the account balance positive) One instance may have multiple NSFs during that period but all occur within the same time period prior to the account being brought current. If the account becomes overdrawn again, that is considered a second "instance"

Income Trend

Bank statements must show a stable or increasing trend. If the trend is increasing or stable, no additional review is required. If the trend is declining and/or irregular, additional documentation is required as detailed below.

- 12 Months Bank Statements:**
 - A decline in eligible deposits 6 months over 6 months up to 15% is acceptable.
 - If the decline is > 15%, an additional 12 months of statements is required
- 24 months Bank Statements**
 - If eligible deposits are declining, refer to the chart below for requirements
 - If the decline is > 50% year over year, the account **cannot** be used for income calculation

24 Month Bank Statements: Declining Deposit Trend Requirements	
Scenario	Requirement
If the eligible deposits declined year over year up to 15%	Utilize 24 month average
• If the eligible deposits decline by >15% up to 50% year over year	Utilize a 12 month average of the most recent years eligible deposits
If the eligible deposits decline year over year by > 50%	The income is ineligible

NOTE: The borrower must provide an LOE for a decline >15% in year over year eligible deposits. The LOE must address the reason for the decline and whether or not the decline is expected to continue

- Calculating the Income Trend 24 Months Bank Statements:** The deposit trend is determined by calculating the percentage change from year one (months 13 to 24) to year two (months 1 to 12).
 - Eligible deposits from year one are subtracted from year two and the difference is divided by year one eligible deposits to determine the change

Example:

- Year 1 Eligible Deposits: \$100,000
- Year 2 Eligible Deposits: \$80,000
- Calculate: 80,000 minus \$100,000 -\$20,000 divided by \$100,000 = 20% decline

Construction to Perm

The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a borrower for the purpose of replacing interim construction financing that the borrower has obtained to fund the construction of a new residence.

- Construction-to-permanent financing can be structured as a transaction with one or two separate closings; **however Homebridge will not provide the construction financing (a one closing transaction)**. The borrower must hold title to the lot, which may have been previously acquired or be purchased as part of the transaction.
- All construction work, including any work that could entitle a party to file a mechanics' lien or materialmen's lien, must be completed and paid for, and all mechanics' liens, and any other liens and claims that could become liens relating to the construction must be satisfied before the loan is closed with Homebridge. Homebridge will retain the appraiser's certificate of completion and a photograph of the completed property in the loan file. When a construction-to-perm mortgage loan provides funds for acquisition or refinancing of an unimproved lot and the construction of a residence on the loan, Homebridge will retain a certificate of occupancy or an equivalent from the applicable government authority.
- Units in a condo project are not eligible for construction-to-permanent financing.

Two-Closing Transactions

- The first closing is to obtain the interim construction financing (and may include the purchase of the lot). **Construction financing is not eligible through Homebridge.**
- The second closing (aka "end" loan) is to obtain the permanent financing upon completion of the improvements **and is eligible** through Homebridge.
- A modification may not be used to update the original Note; a new Note must be completed and signed by the borrowers.
- The borrower is underwritten based on the terms of the permanent mortgage.
- Transactions are subject to the limited cash-out and cash-out refinance maximum LTV/CLTV/HCLTV ratios, as applicable.
- Cash-out refinance transactions require the borrower to have held legal title to the lot for at least 6 months prior to the closing of the permanent mortgage.
- All other standard cash-out refinance eligibility and underwriting requirements apply
