Commission income borrowers are borrowers who receive > 25% of their annual income from commission.

- Paystub(s) covering 30 calendar days with YTD earnings dated no earlier than 30 calendar days prior to the initial loan application date

- Annual earnings should be level or increasing from one year to the next. If the trend for the commission earnings shows a decline, an explanation must be provided by the borrower and eligibility will be determined by the underwriter
- Commission income received for more than one year, but less than two years, may be considered if the likelihood of continuance can be documented in the file subject to Homebridge review and approval
- In all cases, receipt of YTD commission income, in line with or greater than the average being used to qualify, must be documented
- Commission income earned for less than one year is not eligible

NOTE: Exceptions may be considered for situations in which the borrower's compensation was changed from salary to commission within a similar position with the same employer.

Gratuity and Tip Income

Eligible for qualifying if the income has been included in the borrower's prior two years taxable income. The income will be averaged, unless declining. Current receipt must be verified and be consistent with the tip/gratuity income received in the prior 2 years

Partial Year Paid Borrowers

Borrowers who are paid for only part of the year (e.g. teachers, forest fire fighters) are eligible. Qualifying income will be determined by using the monthly salary, multiplied by the number of months the borrower is paid, and divided by 12

Recent Conversion from W-2 to 1099

A borrower who has converted from a W-2 employee to a 1099 employee and has not yet have filed tax returns are eligible subject to:

Expenses claimed on the profit and loss statement should be reasonable to the borrower's line of work, provided they are not reimbursed per the borrower's contractor. Two years employment in the same line of work prior to the conversion should also be verified.

Documentation of Income (cont.)

Self-Employed Minimum Documentation Requirements

The following documentation must be present in the file to make a determination of a self-employed borrower's income:

- Most recent one or two year's personal federal tax returns (depending on the below),
- Any K-1s relating to self-employment listed on personal federal tax return(s) provided,
- Most recent one- or two-year's business federal tax returns (depending on the below) for primary business(es) relied upon for qualifying, and

Age of Documents

- Paystubs (if utilized): 120 days
- Profit and Loss/Balance Sheet: 120 days
- CPA/EA/Licensed Tax Preparer Letter: 60 days

Treatment of Income sources

The borrower provides the most recently filed two (2) years of personal and business federal tax returns. Income is generally calculated based on a 24-month average of the tax returns provided if income is increasing and a 12-month average of the most recent years returns if income is decreasing. See below for instances where the income listed on the profit and loss statement may be included with qualifying income. If income is decreasing, an explanation and/or additional documentation may be required. A year-end and/or year-to-date profit and loss statement and balance sheet prepared by the borrower may be required.

For either method of documenting self-employed income, the following may be added back to the borrower's income calculation:

- Depreciation
- Amortization
- Pension contributions directly contributed to borrower
- Any expense(s) that can reasonably be documented to be one time and non-recurring
- Net operating loss carryforwards from years prior to the tax returns provided
- Business expenses for debts already included in the DTI
- Business Use of Home
- Mileage

Use of Interim Financials to Determine Qualifying Income

A self-employed borrower may include either year end or year to date financials prepared in accordance with above as part of their qualifying income. Income will be averaged over the period of the tax returns and the profit and loss statements provided. The borrower must provide their bank statements from the account utilized for their business for the period covered by the P&L and their bank statements must show deposits which are a.) part of the borrower's income stream and b.) total at least 90% of the gross receipts listed P&L.

Business Income not Used to Qualify

Homebridge does not require a borrower to provide corporate/partnership tax return(s) or interim financials if the income generated by the entity is not considered to qualify. The underwriter must ensure that there are no losses from businesses that are not being considered. K-1s reflecting income on the tax return(s) which are not being used to qualify the borrower and which do not reflect losses do not need to be provided. K-1's and business returns (as applicable) reflecting losses on the tax return years provided must be furnished by the borrower.

Types of Business Structures

There are four basic types of business structures:

- Sole proprietorships
- Corporations
- Limited liability or "S" corporations
- Partnerships

Bank Statement Documentation Eligibility and Summary

Bank Statement

Documentation of Income (cont.)

Personal and Business Accounts

The following applies to **both personal and business bank statement** options:

- Income that is illegal under local, state, and/or federal law is **not eligible** (including income generated from marijuana dispensaries)

Non-Sufficient Funds (NSFs)

Excessive NSFs will require a written explanation from the borrower. The following applies:

- 12 Months Bank Statements:**
 - Maximum of three (3) **instances*** of NSFs within the past 12 months
 - Four (4) or more **instances*** of NSFs within the past 12 months, **the loan is ineligible**
- 24 Months Bank Statements:**
 - Maximum of three (3) **instances*** within the most recent 12 months, **and**
 - If > three (3) **instances*** of NSFs in months 13 to 24 a detailed explanation from the borrower is required

*NSF "**instances**" are defined as a time period where the account is overdrawn and subsequently brought current (i.e. funds are deposited to bring the account balance positive) One instance may have multiple NSFs during that period but all occur within the same time period prior to the account being brought current. If the account becomes overdrawn again, that is considered a second "instance"

- Returned deposits require a detailed letter of explanation from the borrower

Income Trend

Bank statements must show a stable or increasing trend. If the trend is increasing or stable, no additional review is required. If the trend is declining and/or irregular, additional documentation is required as detailed below.

- 12 Months Bank Statements:**
 - A decline in deposits over 6 months up to 10% is allowed
 - Declines > 10% require an additional 12 months of bank statements and the 24 months bank statement policy below applies
- 24 months Bank Statements**
 - If eligible deposits are declining, refer to the chart below for requirements
 - The borrower must provide a written explanation for a decline > 15% in year-over-year eligible deposits. The LOE must address the reason for the decline and whether or not this event will continue
 - If the decline is > 50% year over year, the account **cannot** be used for income calculation

**24 Month Bank Statements:
Declining Deposit Trend Requirements**

Scenario	Requirement
If the eligible deposits declined year over year by ≤ 15%	Utilize 24 month average
<ul style="list-style-type: none"> If the eligible deposits decline by > 15% up to 50% year over year. Borrower must provide an LOE explaining the reason for the decline and if the decline is expected to continue 	Utilize a 12 month average of the most recent years eligible deposits NOTE: Borrowers using P&L option to qualify, a revised P&L covering only the most recent 12-month period is required
If the eligible deposits decline year over year by > 50%	The income is ineligible

- Calculating the Income Trend 24 Months Bank Statements:** The deposit trend is determined by calculating the percentage change from year one (months 13 to 24) to year two (months 1 to 12).
 - Eligible deposits from year one are subtracted from year two and the difference is divided by year one eligible deposits to determine the change

Example:

- Year 1 Eligible Deposits: \$100,000
- Year 2 Eligible Deposits: \$80,000
- Calculate: 80,000 minus \$100,000 -\$20,000 divided by \$100,000 = 20% decline
