203(k) Standard Program Overview – Construct/Replace/Add

The Standard 203(k) program is designed for more extensive construction/rehab projects and allows a borrower to obtain a single loan to:

- Purchase a property and complete construction/ repairs/improvements after loan closing using the “After-Improved” value of the property

FHA Standard 203(k) Program Guidelines

General Parameters

- Repairs must be a minimum of \$5,000 and the total mortgage amount on the property including the cost of repairs, must fall with the FHA mortgage limit for the area where the property is located. **Homebridge limits the maximum repair costs to \$60,000.**
- All renovation work must start within 30 days of closing. The work cannot stop for more than 30 days during the rehab process and must be completed within 6 months of loan closing.
- An escrow account is established and funds are released as work is completed. A maximum of 5 draws is allowed. No funds are released from the escrow account until the permits are provided. Refinance transactions require all permits and building approvals **prior to** loan closing/funding
- The mortgage amount is based on the projected value of the property with all work completed (“After-Improved” value)
- Hazard insurance must meet Standard Coverage Requirements; refer to the [Insurance Quick Reference Guide](#) located under “Reference Guides” for details
- Requires a HUD approved consultant who works directly with borrower and contractor, provides initial Work Write-Up and performs draw inspections to approve disbursement to the general contractor. The contractor must be accepted by Homebridge. To view HUD approved consultants go to [HUD 203\(k\) Consultants](#)
- One general contractor is allowed and specialized subcontractors are allowed under the general contractor. The contractor must be licensed and insured in the jurisdiction where the work will be completed.

4506-C	<ul style="list-style-type: none"> • Signed 4506-C required prior to loan closing for both personal and business tax returns (if applicable) • Tax transcripts are not required NOTE: At underwriter discretion transcripts may be required in certain circumstances (e.g. handwritten paystubs, borrower employed by family member, etc.) • Homebridge will order transcripts at random for quality control purposes
Age of Documents	<ul style="list-style-type: none"> • All credit, income, and asset documentation must be ≤ 120 days at time of funding • Appraisal is valid for 120 days from the effective date. Refer to the Appraisals topic for requirements when using an appraisal extension
Appraisals	<ul style="list-style-type: none"> • Appraisals must be provided by a licensed FHA approved appraiser. • A copy of the Work Write-Up and Cost Estimate, completed by the HUD Consultant, must be provided to the appraiser at time of appraisal assignment • All 203(k) appraisals are completed “Subject To” • Purchase transactions require one value: <ul style="list-style-type: none"> - An “After-Improved “value aka “As-Completed” value (value after improvements completed) is always required. - HUD does not require an “As-Is” value; HUD assumes the purchase price is the “As-Is” value. • NOTES: If an “As-Is” value is provided the lower of the sales price minus any inducements to purchase or “As-Is” value must be used. The use of an “As-Is” value may cause processing delays and valuation issues. The appraisal must include remarks in the Improvements Section detailing the scope of work • The appraiser must comment on the value added by improvements such as landscaping, patios, decks, etc. These types of improvements must increase the “As-Is” value equal to the dollar amount spent on the improvements unless required to preserve the property from erosion. • The Reconciliation Section of the appraisal report must be completed as “subject to” • Repairs and bid(s) in the appraisal report must match the Work Write-Up and Cost Estimate provided by the HUD Consultant to the appraiser at time of appraisal assignment. • Appraisal photos must be taken of the front and rear of the property, at opposite angles, to show all sides of the subject property. • Additional photos are required for any improvements with contributory value that are not captured in the front and rear photos. • The street scene photo must include a portion of the subject property

FHA Standard 203(k) Program Guidelines

<p>Appraisals (cont.)</p>	<ul style="list-style-type: none"> • A minimum of 3 closed comparable sales are required. The source of the closed comparable sales used in the appraisal must be from one of the following or a desk review will be required: <ul style="list-style-type: none"> - MLS, or - Comps Inc., or - GeoData Plus (NY only), or - PropertyShark (NY only), or - StreetEasy (NY only) <p>NOTE: Comparables from a public independent source are only eligible in rural areas of Maine, New Hampshire, and Vermont where MLS is not common</p> • The comparable photos must include the front view of each comparable sale used. Use of MLS photos to exhibit comparable condition at the time of sale are acceptable, however, the appraiser must include their own photos to document compliance with the Score of Work which requires the appraiser to inspect each comparable sale from the street. • Comparable sales for REO properties are subject to the following: <ul style="list-style-type: none"> - HUD prefers that REO sales and pre-foreclosure sales are not used as comparable sales to establish the value for the REO property being appraised. If REO sales and pre-foreclosure sales are used, the appraiser must address their use in the appraisal report and identify the effect they have on the market and specifically the subject property. - Properties where the transfer to a mortgagee or entity owning the mortgage loan by deed of trust through foreclosure sale or sheriff's sale may never be used as a comparable sale (e.g. a property that was foreclosed on by a bank or the property was seized for payment of delinquent debt, such as property taxes and the bank or sheriff's department still has ownership of the property). • Appraisal must identify and address properties located within a declining market. When the property is located in a declining market, the appraiser is required to: <ul style="list-style-type: none"> - Provide, at minimum, two comparable sales that closed within 90 days of the subject property appraisal. The comparables must be as similar to the subject property as possible. - The appraisal must include, at minimum, two active listings or pending sales. • At minimum, Homebridge requires the following on all properties: <ul style="list-style-type: none"> - A conventional heat source with the ability to maintain a temperature of 50° in areas of the property where there is plumbing - Any broken glass that is a health hazard must be removed and the opening closed. • The appraiser must indicate if the utilities were on or off at the time of the appraisal. Refer to the Utilities topic for specific requirements regarding utilities. • Appraisal Extension: Appraisals are valid 120 days from the effective date. A 30 day extension is allowed provided there is a signed sales contract or the borrower has loan approval prior to the original appraisal expiration date. Loans with an appraisal extension must close within 150 days from the effective date of the appraisal report or a new appraisal and a new case number will be required. • FEMA Disaster Declarations: Properties located in a Disaster Declaration area will be subject to additional appraisal review.
