Appraisals	• DU determines the level of appraisal on owner-occupied properties. If a reduced appraisal recommendation is received from DU it must be on the final DU Finding. Refer to the Appraisal- Property Inspection Waiver (PIW) topic for eligibility and requirements. • Appraisals must be Uniform Appraisal Data (UAD) compliant and meet Fannie Mae's Appraiser Independence Requirements (AIR). • A Fannie Mae Market Conditions Addendum (1004MC) and a Fannie Mae Submission Summary Report is required on all appraisals. • If an applicable law, regulation or Homebridge policy requires more than one (1) appraisal be obtained, the single most accurate appraisal must be used for underwriting and submission to the Uniform Collateral Data Portal (UCDP). • A full appraisal must provide legible interior and exterior photos. - The exterior photos must contain photos of the front, back and street scene of the subject property as well as the front of all comparable sales. - The interior photos, at minimum, must include: - Kitchen, (free-standing stove/range or refrigerator not required) - Main living area, - All bathrooms, - Examples of physical deterioration, if present, - Examples of any recent updates, if present (i.e. remodel, renovation, restoration) • A minimum of 3 closed comparable sales are required. The source of the closed comparable sales used in the appraisal must be from one of the following or a desk review will be required: - A Multiple Listing Service (MLS.com), or - MRIS (www.mris.com), or - Midwest Real Estate Dated (MRED) (www.mredllc.com), or - North Texas Real Estate Information Systems, Inc. (NTREIS) at (www.ntreis.net), or - San Antonio Board of Realtors (www.sabor.com), or - GeoData at www.geodataplus.com , or - Comps Inc. at www.compsny.com. NOTE: Comparables from a public independent source are only eligible in the states of Maine, New Hampshire, and Vermont • Net or gross adjustments made to the comparable sales by the appraiser must be market based (i.e. the appraiser must analyze the market for competitive properties and provide appropriate market based adjustments without regard to "rule-of-thumb"/arbitrary limits on the size of the adjustment. Properties used as a comparable sale must be similar enough to the subject property to be considered a competitive property. Comparable sales adjustments deemed excessive by the underwriter must be addressed. • New Construction Comparables: Comparable sales used for new construction properties are subject to the following: - If all three of the comparable sales used to support the value of the subject property were obtained from one of the above sources (public source eligible in Vermont and Maine only) no further action is required. - If the comparable sales are not all obtained from a MLS, MRIS, MRED, NTREIS, or from an independent source (Vermont and Maine only), the appraiser must comment that the subject property development is being marketed in an "open" or "public" environment (i.e. newspaper advertisements, billboard signs, website, etc.). (cont. on next page)
-------------------	---

Fannie Mae HomeReady Guidelines

Appraisals (cont.)	- Additionally, the following applies to comparables for new construction: - One of the comparable sales must be outside the project the subject property is located in and be from an MLS, MRIS, MRED, NTREIS, SABOR, GeoData, or Comps Inc. or public source (public source Maine/New Hampshire/Vermont only). - Two of the comparable sales must be from sources other than the subject property builder. - In the event there are no closed sales inside the new subject project/subdivision due to the subject property being one of the first to sell, the appraiser may use 2 pending sales in the subject property project/subdivision, in lieu of one closed sale. If the appraiser uses 2 pending sales in lieu of a closed sale, the appraiser must also use at least 3 closed comparable sales from projects/subdivisions outside of the subject property's project/subdivision. NOTE: The appraiser is always allowed to provide more than three comparable sales in order to support the property value. • The appraisal must identify and address properties located within a declining market. • Modular/Prefabricated homes: The appraiser must address the marketability of the property • Homebridge requires properties to be, at minimum, in average condition. Additionally, the following applies: - A conventional heat source with the ability to maintain a temperature of 50° in areas of the property where there is plumbing. - Any broken glass that is a health hazard must be removed and the opening closed. • Properties that do not meet the "average condition" requirement may be eligible for an Escrow holdback. Holdback/repair escrows are subject to Homebridge approval. If approved, the appraiser must confirm the work completed will bring the property up to average condition. Refer to the Escrow Holdbacks topic for more details. • Appraisal transfers are considered on a case-by-case basis subject to Homebridge management review and approval. If approved, a Desk Review obtained by the Homebridge Appraisal Review Dept. is required. • A new appraisal will be required when the appraisal is dated more than 120 days from the Note date. • Properties located in a FEMA Disaster Declaration area will be subject to additional appraisal review.

Appraisal – Property Inspection Waiver (PIW)	If DU issues a Property Inspection Waiver (PIW) the following applies: - The initial DU Findings indicate a PIW is eligible. Assets

Asset documentation per DU

- All funds used to close the transaction must be disclosed on the 1003 and input into DU.
- The borrower must provide evidence that the earnest money deposit came from an acceptable source and that they have sufficient assets to cover the down payment, closing costs, prepaids and reserve requirements. Evidence required:
 - Two months most recent bank or financial statements, all pages.

NOTE: If a copy of the canceled deposit check is used to document the source of funds, the bank statements must cover the period up and including the date the earnest money check cleared the bank.
- Business funds of a self-employed borrower may be used for down payment, closing costs and/or reserve requirements subject to the following:
 - The borrower must be listed as an owner on the account. If the borrower's name is not listed on the business account statement, documentation that the borrower is an authorized signer on the account is required. This applies to all business accounts, including sole proprietorships, when business account funds are being utilized for down payment, closing costs and/or reserves. Examples of acceptable documentation:
 - Letter from the bank confirming borrower is an authorized signer, or
 - Online documentation that confirms borrower is an authorized signer

NOTE: Use of business funds when the borrower does not own a significant percentage of the business will be at underwriter discretion (e.g. borrower has a 10% ownership interest and is using a significant amount of the business funds for down payment/closing costs).
 - A cash flow analysis, based on 3 months business bank statements, dated within 60 days of the closing date, is required to determine the withdrawal of business funds will not have a negative impact on the business. The cash flow analysis:
 - Must indicate that the average running balance in the account for the previous 3 months stayed the same or was better, and
 - The amount of funds used for the transaction must not deplete the account i.e. the balance remaining in the account should not be less than half of what was in the account prior to the withdrawal
- Stocks, Bonds and Mutual Funds
 - Stocks, bonds and mutual funds (including retirement accounts) may be used at 100% of the asset value for the calculation of reserves.
 - If used for down payment and/or closing costs, proof of liquidation is not required when the combined asset value is at least **20% more** than the funds needed for closing.
- Cash-on-hand is eligible for 1-unit properties only for down payment, funds to close and prepaid items subject to the following verification and documentation requirements:
 - Borrower customarily pays cash for expenses and the amount of cash-on-hand is consistent with the borrower's payment practices, **and**
 - Documentation that the funds for the down payment and closing costs are deposited in a financial institution or acceptable escrow account. The funds must be on deposit at the time of loan application, or at least a minimum of 30 days prior to loan closing, **and**
 - A written statement, signed by the borrower(s), stating the source of the cash-on-hand and that the funds were **not** borrowed, **and**
 - The credit report validates the borrower's limited or no use of credit and a limited or no relationship with a depository institution (e.g. bank, credit union, etc.)

NOTE: Cash-on-hand cannot be used to satisfy the borrower's reserve requirement (if required)
- Payout from a life insurance policy is acceptable for down payment or closing costs. A copy of the check or payout statement, issued by the insurance company is required. If the cash value is being used for reserves, documentation of the cash value is required however the policy does not need to be liquidated

Fannie Mae HomeReady Guidelines

Assets (cont.)

- Proceeds from the sale of a currently owned property are eligible for down payment and closing costs. The final CD for the existing property must be provided before or at closing to show sufficient net cash proceeds to close the purchase. The final CD is **not required** to be fully executed.
NOTE: When the borrower's employer assumes responsibility for paying off the existing mortgage as part of a relocation plan, a copy of the executed buy-out agreement is required to document the source of funds. A copy of the sales contract or listing agreement is **not** considered an acceptable source of verification of proceeds from the sale.
 - Unsecured borrowed funds, and unverified funds are ineligible sources for assets.
 - Large deposits are considered to be a single deposit where any **unsourced** portion of the deposit exceeds 50% of the combined gross monthly income of the borrower(s). If the deposit includes both sourced and unsourced funds, only the unsourced portion is used to calculate whether the deposit meets the 50% definition. Direct deposits, such as IRS or state income tax refunds, transfer of funds between verified accounts, that are easily identified on the account statement do not require documentation.
 - Large unsourced deposits must be explained and verified.
 - Requirements for documenting large deposits are as follows:
 - **Refinance transactions:** Large deposits are not required to be sourced and explained however, at underwriter discretion, explanation and sourcing may be necessary as Fannie Mae requires any payment on borrowed funds be included in the DTI ratios.
 - **Purchase transactions:** If the funds from a large deposit are needed for the down payment, closing costs or reserves on the transaction documentation must be provided that the funds are from an acceptable source. Any undocumented large deposit will be deducted from the amount of verified funds and the reduced asset amount will be used for qualification
- Examples:*
1. The borrower has a monthly income of \$4,000 and a bank account with a balance of \$20,000. A deposit of \$3,000 was made but \$2,500 of the deposit is documented as the borrower's tax refund (sourced).
In this example only the \$500 is considered "unsourced" (\$3000 total deposit minus \$2500 tax refund) and is included in the large deposit calculation.
The unsourced \$500.00 is only 12.5% of the borrower's monthly income therefore it does not meet the large deposit definition (50% of the borrower's total monthly qualifying income). In this example, documentation is not required and the entire \$20,000 balance in the borrower's bank account may be used for underwriting purposes.
 2. The same borrower has a deposit of \$3,000 but only \$500 is documented as the borrower's tax refund (sourced) leaving \$2,500 has unsourced.
In this example the unsourced \$2,500 is 63% of the borrower's \$4,000 monthly income which does meet the definition of a large deposit.
The unsourced \$2,500 must be deducted from the borrower's \$20,000 bank account balance leaving \$17,500 that may be used for underwriting purposes.
 3. The same borrower has 3 separate unsourced deposits of \$1800 which technically does not meet the 50% of the borrower's gross monthly income requirement since each deposit is less than \$2,000 (50% of \$4,000) however at underwriter discretion sourcing/documentation may be required.
- Verification of assets from foreign sources:
 - Funds that a borrower (either a U.S. or non-U.S. citizen) has deposited into a U.S. depository institution are acceptable provided all of the following requirements are met:
 - Documentation of the transfer of funds from the borrower's country of origin is provided, and
 - It can be established that the funds belonged to the borrower before the date of transfer, and
 - The source of all funds used for closing can be verified following the same requirements for U.S. citizens.

Fannie Mae HomeReady Guidelines

Construction to Perm	The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a borrower for the purpose of replacing interim construction financing that the borrower has obtained to fund the construction of a new residence. • Construction-to-permanent financing can be structured as a transaction with one or two separate closings; however Homebridge will not provide the construction financing (a one closing transaction). The borrower must hold title to the lot, which may have been previously acquired or be purchased as part of the transaction. • All construction work, including any work that could entitle a party to file a mechanics' lien or materialmen's lien, must be completed and paid for, and all mechanics' liens, and any other liens and claims that could become liens relating to the construction must be satisfied before the loan is closed with Homebridge. Homebridge will retain the appraiser's certificate of completion and a photograph of the completed property in the loan file. When a construction-to-perm mortgage loan provides funds for acquisition or refinancing of an unimproved lot and the construction of a residence on the loan, Homebridge will retain a certificate of occupancy or an equivalent from the applicable government authority. • Units in a condo project are not eligible for construction-to-permanent financing. Two-Closing Transactions - The first closing is to obtain the interim construction financing (and may include the purchase of the lot). Construction financing is not eligible through Homebridge. - The second closing (aka "end" loan) is to obtain the permanent financing upon completion of the improvements and is eligible through Homebridge. - A modification may not be used to update the original Note; a new Note must be completed and signed by the borrowers. - The borrower is underwritten based on the terms of the permanent mortgage. - Transactions are subject to the limited cash-out refinance maximum LTV/CLTV/HCLTV ratios, as applicable.
Contingent Liabilities	• Business Debt - Business debt that appears on a self-employed borrower's personal credit report requires documentation that the debt is paid from company funds and considered in the cash flow analysis for the borrower's business. - Business debt does not need to be considered as part of the borrower's individual recurring monthly debt when: - The account does not have a history of delinquency, and - Documentation is provided that the debt was paid from the borrower's business funds (e.g. 12 months cancelled business checks), and - The cash-flow analysis of the business took payment of the obligation into consideration. If documentation of payment from the business funds cannot be provided, or there is history of delinquency on the account the debt must be considered as part of the borrower's individual recurring debt obligation. • Co-Signed Debt - Mortgage - Co-signed mortgage debt is not required to be included in the borrower's DTI calculation if all of the following applies: - Documentation is provided that the borrower is not primarily responsible for payment of the debt, and - The credit report indicates no late payments on the account, and - 12 months most recent consecutive cancelled checks are provided documenting the primary party obligated on the debt has been making the payments (the checks cannot be from an account co-owned with the borrower). - Co-signed mortgage debt must be included in the borrower's DTI calculation if: - It cannot be properly documented that the primary party obligated on the loan is making the payments, or - A 12 month pay history, by the primary party, cannot be established, or - The credit report indicates there have been late payments on the debt, or - Another party is making the payments but the borrower is the only party responsible for the debt. Refer to the Credit – Installment/Revolving topic for non-mortgage debt paid by others

Conversion of Principal Residence or Pending Sale	• Pending Sale: - If the borrower is purchasing a new primary residence, and the current primary residence is pending sale but will not close prior to the new transaction, the borrower's PITIA payment on their current residence may be omitted when qualifying the borrower if all of the following are provided: - A copy of the fully executed sales contract is provided, and - Written verification provided by the closing attorney or escrow confirming all financing contingencies have been cleared. • Conversion to Second Home: - The borrower is qualified using the PITIA payments for both properties - Reserves required in accordance to the Reserves - Multiple Financed Properties section of this guide • Conversion to Investment Property: - Must follow standard Income-Rental and Reserves – Multiple Financed Properties section of this guide
Credit History	• Trade line requirements per DU Findings. • Authorized user trade lines require underwriter review to ensure the trade lines are an accurate reflection of the borrower's credit history.
Credit - Installment/Revolving	All debts will be run through DU to ensure accurate DU Findings. • Installment Debt - Installment debt is considered as a recurring monthly debt obligation and included in the borrower's long-term debt when there are more than 10 months payments remaining. - Installment debt with ≤ 10 months remaining will be considered as a recurring monthly debt obligation if it significantly affects the borrower's ability to meet their credit obligations. NOTE: Lease payments for automobiles must be considered a recurring monthly debt obligation and included in the DTI calculation regardless of the number of months remaining on the lease. • Revolving Debt - Revolving debt is considered part of the borrower's recurring monthly debt. Revolving debt includes credit cards and personal lines of credit (equity lines, secured by real estate, are included in the housing expense). Revolving debt is subject to the following: - If the monthly payment is not included on the credit report, the underwriter will use the greater of \$10 or 5% of the outstanding balance to determine the monthly payment - If the revolving account is to be paid off at or prior to closing, a monthly payment is not required to be included in the debt ratio. The account does not need to be closed as a condition of excluding the payment from the borrower's debt ratio. - If the revolving account is to be paid off prior to closing, documentation that the debt was paid in full and source of funds must be provided and verified. - If the revolving account is to be paid off at closing, the payoff must be shown on the CD. • 30 Day Charge Accounts - Open 30-day charge accounts require sufficient assets to pay off the debt in order to be excluded from the debt ratio.

Credit - Installment/Revolving (cont.)

- **Debt Paid by Others – Non-Mortgage**

- When the borrower is obligated on non-mortgage debt (e.g. installment loans, revolving, lease payments, student loans, etc.) but is **not** making the payment the debt may be excluded from the DTI calculation subject to the following:
 - The other party must be paying the **entire monthly payment** for a minimum of 12 months. The debt may **not** be excluded if the borrower is paying any portion of the monthly payment **or** the other party has not been making the entire payment for at least 12 months.
 - 12 months cancelled checks or bank statements from the party making the payments are required to document 12 months 0x30 pay history. If any delinquencies the payment **may not** be excluded.

NOTE: The above **does not apply** if the party paying the debt is an interested party to the subject transaction

- **Student Loans in Repayment, Deferred, or Forbearance**

All student loan payments, whether deferred, in forbearance, or in repayment must be included in the DTI calculation

Payment Included on Credit Report:

- If the payment is included on the credit report, the payment on the credit report will be used for qualifying (including income-driven payments)

NOTE: If documentation is provided that indicates a different payment amount than what is on the credit report (i.e. the most recent student loan statement) the correct monthly payment amount may be used. The documentation supporting the correctly monthly payment must be retained in the loan file. A credit supplement may be obtained to reflect the correct monthly payment but is **not** required.

Payment Not Included on Credit Report:

- If the payment is not included on the credit report, or the credit report indicates \$0, **one of the following two options must be used** to calculate the qualifying monthly payment:
 1. 1% of the outstanding loan balance (even if the amount is lower than the actual fully amortizing payment), **OR**
 2. A fully amortizing payment using the documented loan repayment terms

- **Student Loans – Income Based Repayment (IBR)**

- A \$0 payment may be used when:
 - It is listed as \$0 on the credit report (a credit supplement that documents the \$0 payment is acceptable), **OR**
 - A letter from student loan servicer is obtained stating the payment is \$0

- **Child Support/Separate Maintenance Payments**

Child support or separate maintenance payments that are required to be paid due to a divorce decree, separation agreement or other legal document must be included in the borrower's monthly debt obligations if they will continue for > 10 months. Voluntary payments are **not required** to be considered in the DTI calculation. A copy of the divorce decree, separation agreement, court order, etc. must be obtained and retained in the loan file

- **Alimony Payments**

Alimony payments that are required to be paid due to a divorce decree, separation agreement or other legal document may be treated using one of the two following options:

- The monthly payment may be deducted from the borrower's monthly qualifying income and the adjusted income figure is entered as the income amount in DU, **or**
- The monthly payment may be included in the borrower's DTI calculation

NOTE: If reducing the borrower's monthly income by the alimony payment, the amount of the alimony obligation is entered in DU as a negative amount under "Income Type" In the event the borrower also receives alimony income, this amount is combined with the amount of the alimony payment and entered as a net amount

- A copy of the divorce decree, separation agreement, court order, etc. must be obtained and retained in the loan file

Credit Report/Scores	• Credit score is per DU Findings • LTV > 95% requires at least one borrower on the loan must have a credit score and that borrower must meet the minimum credit score requirement provided by DU. • Homebridge will accept a credit report, in the broker's name, from any Fannie Mae acceptable credit vendor. The credit report must contain trended credit data. • A tri-merged credit report is required for all borrowers. • If a borrower does not have sufficient credit to establish a credit score a non-traditional credit profile must be established. A tri-merged credit report is required to confirm the borrower does not have a credit score. If a credit score cannot be provided the credit report must accurately reflect the borrower(s) personal information (social security number, current address, etc.) • The representative credit score is determined as follows: - If there are three (3) valid scores, the middle score is used. If two of the three scores are a duplicate, the duplicate score is used. - If there are two (2) valid scores, the lower of the two is used - If there is one (1) valid score, that score is used The representative score for the loan is the lowest representative score for all borrowers. • The borrower(s) must address all credit inquiries indicated on the credit report within the previous 90 days, specifically stating the name of the creditor(s) and the result of the inquiry/inquiries (i.e. was new credit obtained or not). Examples of acceptable/unacceptable responses below: - Acceptable Response: "The inquiry/inquiries by Bank of America, Wells Fargo, etc. did not result in additional credit" - Unacceptable Response: "We did not obtain any additional credit as a result of the credit inquiry/inquiries listed on our credit report" (unacceptable since name of creditors not listed) • The credit report cannot be older than 4 months at time of funding or the expiration date received from DU, whichever is less.

An updated credit report is not required - If the underwriter determines the account does belong to the borrower the loan is ineligible as Fannie Mae requires a manual underwrite and Homebridge does not offer manual underwriting on conventional loans NOTE: If any finding other than an “Approve/Eligible” is received the loan is also ineligible as Fannie Mae requires a manual underwrite Re-Established Credit Requirements After a foreclosure, bankruptcy, deed-in-lieu, or pre-foreclosure borrowers are required to have re-established good traditional credit. Eligibility:	Not Eligible
With Rental Income from Boarder:	\$375 per month (documented 12 months)

Example 2

Boarder Income Documented for 10 Months (must be averaged over 12 months)	
Borrowers Income:	\$6,000

Income – Rental

The following guidance applies to a 1-unit primary residence property with an accessory unit and 2-4 unit primary residence properties.

- Rental income may be used to qualify the borrower if it can be established that the income is likely to continue. Based on the information provided, the underwriter will determine the rental income that will be used to qualify the borrower.

Documenting Rental Income

Rental Income on Schedule E

- If the borrower has a history of renting a property, rental income is reported on Schedule E of the borrower's personal tax return and may be used for qualification.
- The gross monthly rent must be documented even if the borrower is not using any rental income from the subject property to qualify.

Rental Income from Subject Property

- Rental income generated from the **subject** property requires the appraiser to provide:
 - Single-Family Comparable Rent Schedule (FNMA Form 1007*) used for 1-unit property, **or**
 - Small Residential Income Property Appraisal Report (FNMA Form 1025) for 2-4 unit properties.

NOTE: Form 1007 is only required when rental income is being used for qualification.

Income – Rental

Rental Income from Investment Property

- Rental income generated from **other** investment property currently owned by the borrower (e.g. SFR, units or commercial property) the borrower must provide personal tax returns and all related schedules. The underwriter must document the monthly gross (and net) rental income from Schedule E.
- If the borrower acquired the property subsequent to filing a tax return a copy of the signed, lease agreement and a copy of the receipt and deposit of the security deposit from the tenant into the borrower's bank account is required if the underwriter can document a qualifying exception. Refer to the [Partial Rental History or No Rental History](#) topic on the following page for qualifying exceptions.

Partial Rental History or No Rental History

- Borrower's with partial rental history or no rental history (e.g. purchase transaction, refinance when property acquired subsequent to filing the most recent tax return, major renovation to the property so rental income was interrupted, previous primary residence converted into investment property) including the subject and other rental property are subject to the following.
 - If it can be documented, per the requirements outlined in the table below, that the rental property was not in service the previous tax year, or was in service only a portion of the previous tax year, the qualifying rental income may be determined by:
 - Using Schedule E income and expenses, and annualizing the income (or loss) calculation, **or**
 - Using the fully executed lease agreement(s) to determine the gross rental income to be used in the net rental income (or loss) calculation.

If:	Then:
The property was acquired during or subsequent to the most recent tax filing year	The underwriter must confirm the purchase date using the CD and: • If acquired during the year, the Fair Rental Days fields on the Schedule E must confirm a partial year rental income and expenses (as applicable). NOTE: If acquired after the last tax filing year, Schedule E will not reflect rental income/expenses for the property.
The rental property was out of service for an extended period	• Schedule E will reflect the costs for renovation/ rehab expenses. Additional documentation may be required to support the reno expenses and support the amount of time the property was out of service. • The Fair Rental Days fields on Schedule E will confirm the number of days that the rental unit was in service, which must support the unit being out of service for all or a portion of the year.
The property is the borrower's current residence being converted to an investment property	• A fully executed lease agreement must be provided along with a copy of the security deposit from the tenant and borrower's bank statement showing deposited security funds.

Income – Rental (cont.)

Calculating Monthly Qualifying Rental Income or Loss

Schedule E

- When using Schedule E to calculate qualifying rental income the following is added back to the borrower's cash flow:
 - Listed depreciation,
 - Interest, HOA dues,
 - Taxes,
 - Insurance expenses, and
 - Non-recurring property expenses (if documentation provided)
- Properties in service for the entire year, average the rental income over 12 months
- Properties in service less than a full year, average the rental income over the number of months the property was rented (as indicated on Schedule E).

Lease Agreements

- When using current lease agreements, calculate the rental income by multiplying the gross rent(s) by 75%.

Treatment of the Rental Income or Loss

The treatment of rental income/loss varies depending on the occupancy as detailed below:

Property that is the Borrower's Principal Residence

- The monthly qualifying rental income is added to the borrower's total monthly income. The income is not netted against the PITIA of the property.
- The full amount of the PITIA payment is included in the borrower's total monthly obligations when calculating DTI.

Property that is not the Borrower's Principal Residence

- If the monthly qualifying rental income minus the full PITIA is positive, it is added to the borrower's total monthly income
- If the monthly qualifying rental income minus the full PITIA is negative, the net rental loss must be added to the borrower's total monthly obligations.
- The full PITIA for the rental property is factored into the amount of the net rental income/loss so it **should not** be included in the borrower's monthly obligation
- The full monthly payment for the borrower's primary residence (full PITIA or the monthly rent) should be included in the borrower's monthly obligation.

Rental Property Reported through a Partnership or S Corp

If the borrower is personally obligated on a mortgage debt (as reported on the credit report) and gross rents and related expenses are reported through a partnership or S corp., the business tax returns may be used to offset the PITIA payment subject to the following:

- Obtain the borrower's business tax returns, including form 8825 for the most recent year
- Evaluate the properties listed as follows:
 - From the total gross rents, subtract total expenses. Add back insurance, mortgage interest, taxes and HOA dues (if applicable), depreciation, and non-recurring property expenses (if documented),
 - Divide by the number of months the property was in service,
 - Subtract the entire PITIA (proposed for subject property or actual for real estate owned) to determine the property cash flow.
- If the resulting net cash-flow is **positive**, the PITIA may be excluded from the borrower's monthly obligation when calculating DTI,
- If the resulting cash flow is **negative** (the rental income does not fully offset the PITIA payment on the property) the negative amount must be included in the borrower's monthly obligations when calculating DTI.

NOTE: When including positive net rental income received through a partnership/S corp. in the borrower's monthly qualifying income, the requirements for using partnership/S corp. income to qualify the borrower must be met.

DU applies the term "subject net cash flow" to net rental income from the subject property and the term "net rental income" to rental income from properties other than the subject property.

Mortgage Insurance – New York	New York state statute supersedes Fannie Mae standard requirements for calculating the LTV used for determining the need for mortgage insurance. The following applies to loans secured by properties in New York: Calculating the LTV to Determine if MI Required • The appraised value is always used to calculate the LTV ratio to determine whether or not mortgage insurance is required. If MI required determine coverage as outlined below. Determining the Required Amount of MI Coverage • If mortgage insurance is required the lesser of the appraised value or the sales price is used to calculate the LTV ratio that determines the amount/percentage of mortgage insurance coverage required (see Required MI Coverage chart above for required coverage amounts by LTV/Loan Term)
