Documentation of Income (cont.)	Self-Employed Borrower Requirements - There are two (2) methods for documenting self-employed income as detailed below. Method One – One Year Tax Return - One (1) year personal and business federal tax returns, including all schedules, that cover a 12 month period of self-employment - A CPA/EA/licensed tax preparer prepared profit and loss statement/balance sheet (not required to be fully audited) covering the time from the end of the time the tax returns covered. A minimum 6 months' time frame required OR YTD if it has been less than 6 months from the date of the tax return - Income is generally calculated using the tax return and comparing it to the trend on the P&L. The income trend should be stable or positive - If the income trend is not stable or positive, two years tax returns are required. - The tax returns provided must cover a 12 month period of self-employment NOTE: Year-to-date or year-end profit and loss statement and balance sheet required if the Note date is greater than 120 days from the end date of the most recent tax return (if tax return on fiscal year, P&L and balance sheet requirements are based off of fiscal tax return end date). Method Two: - Two Year's Tax Returns - Two (2) years most recent tax returns, both personal and business, including all schedules. - Income is generally calculated based on a 24 month average if income is increasing and a 12 month average of the most recent year's returns if income is declining - Declining income will require an explanation and/or additional documentation from the borrower. A borrower prepared year-end and/or YTD P&L and balance sheet may also be required. NOTE: Year-to-date or year-end profit and loss statement and balance sheet required if the Note date is greater than 120 days from the end date of the most recent tax return (if tax return on fiscal year, P&L and balance sheet requirements are based off of fiscal tax return end date). Use of Interim Financials to Determine Qualifying Income - The borrower may include either year-end or year-to-date financials prepared in accordance with either Method One or Method Two (above) as part of their qualifying income. - The income will be averaged over the period of the tax returns and the P&L provided - The borrower must provide the bank statements from their business account for the period covered by the P&L and the bank statements must show deposits which: - Are part of the borrower's income stream, and - Total at least 90% of the gross receipts listed on the P&L - Regardless of the method used above, the following may be added back to the borrower's income calculation: - Depreciation - Amortization - Pension contributions directly contributed to borrower - Any expenses(s) that can be reasonably documented as one-time/non-recurring - Net operating loss carryforwards from the years prior to the tax returns provided - Business expenses for debts already included in the DTI - Business use of home - Mileage

Investor Cash Flow Documentation Eligibility and Summary	
Investor Cash Flow	
Debt Service Coverage Ratio (DSCR) – Definition and Minimum DSCR Requirements	DTI is not considered on the Investor Cash Flow option. Qualification is based on the DSCR of the subject property only. The DSCR cannot be rounded up to qualify DSCR Definition The DSCR is the gross rent divided by the qualifying PITIA OR the ITIA on the subject property. DSCR qualified using ITIA payment see Calculating the DSCR topic below for requirements • Fixed Rate: Qualify at the Note rate amortized over the loan term • Fixed Rate Interest-Only: Qualify at the Note rate amortized over 20 years with 30 year loan term or amortized over 30 years with a 40 year loan term • 7/6 or 10/6 ARM: Qualify at the start rate amortized over 30 years • 7/6, or 10/6 ARM Interest-Only: Qualify at the start rate amortized over 20 years with 30 year loan term or amortized over 30 years with a 40 year loan term Minimum DSCR Requirements • Refer to the Investor Cash Flow matrix for minimum DSCR requirements • DSCR < 1.00: 3 months <u>additional</u> PITIA reserves required (3 months more than standard requirement) • DSCR is < 1.00 <u>and</u> the LTV is > 70% a prepayment penalty is required. If the property is located in a state where a prepayment penalty is not available, a minimum DSCR of 1.00 or 1.15, as applicable, is required. Refer to the Prepayment Penalty topic for a list of states available for a prepayment penalty • DSCR is 0.75% to < 1.00 and interest-only maximum 70% LTV; < 0.75 DSCR ineligible when using the IO feature • DSCR is < 1.00 and 2-4 units: Maximum 70% LTV • Foreign National (regardless of LTV or credit score): Minimum 1.00 DSCR required
Debt Service Coverage Ratio (DSCR) – Calculating the DSCR	The Determination of Rents topic below provides details for determining the rent. Once the determination has been made the gross rent is divided by the PITIA, or the ITIA for transactions using the interest-only feature for the subject property to calculate the DSCR. Refer to Minimum DSCR Requirements topic above for acceptable DSCR Calculating the DSCR – Interest-Only Transactions: • The DSCR may be calculated using the interest-only payment subject to the following: - The taxes, insurance, and HOA payment (if applicable) and any other payment included in the “TIA” portion of the payment must be included when calculating the DSCR using the IO payment - Maximum 75% LTV. IO transactions with an LTV > 75% requires DSCR to be calculated using full PITIA payment - 6 months reserve requirement based on the ITIA payment (i.e. interest-only 6 months reserves based on the ITIA payment in lieu of 6 months reserves based on PITIA payment) Refer to the ICF Products topic for specific qualifying and amortization requirements DSCR Calculation Example: • Example of <u>Acceptable</u> DSCR: 1. Gross Rent: \$2000.00 2. PITIA Subject Property: \$1600 3. Calculation: \$2,000 divided by \$1600 = 1.250

YTD gross income must support the 1099s provided and used to qualify - If two (2) years 1099s are provided the following applies: - If the gross income is stable or increasing, a 24 months average of the net income is utilized - If the gross income is declining, a 12 months average of the net income is utilized - YTD gross income must support the 1099s provided and used to qualify Method One: Uniform Expense Ratio - The eligible gross receipts are multiplied by 25% of the expense ratio - If the expense ratio is reasonable for the line of work and the borrower qualifies, additional documentation is not required Method Two: Profit and Loss Statement - A profit and loss, prepared by a CPA/ EA/licensed tax preparer covering the time period of the 1099(s) (i.e., one or two years as applicable) - If the gross income on the 1099(s) support a minimum of 90% of the gross income listed on the P&L the net income on the P&L is used for qualifying If two (2) year's 1099s are provided, and the gross income shows a declining trend, a P&L covering the most recent calendar year must be provided and used for qualifying - The income must be reasonable for the borrower's line of work Method Three: CPA Letter for Expense Ratio - A CPA/EA/licensed tax preparer prepared letter stating the borrower's expense ratio based on the borrower's most recent year's tax return. The letter cannot contain any exculpatory language - The expense ratio is multiplied by the gross income shown on the 1099(s) used for qualification. That figure is subtracted from the gross income listed on the 1099(s) and the resulting number is used to qualify, averaged over the number of months of income provided - The income must be reasonable for the borrower's line of work If two (2) year's 1099s provided, and the gross income shows a declining trend, the income will be calculated using the most recent year's 1099 only minus the stated expense ratio

Construction to Perm	The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a borrower for the purpose of replacing interim construction financing that the borrower has obtained to fund the construction of a new residence. - Construction-to-permanent financing can be structured as a transaction with one or two separate closings; however Homebridge will not provide the construction financing (a one closing transaction). The borrower must hold title to the lot, which may have been previously acquired or be purchased as part of the transaction. - All construction work, including any work that could entitle a party to file a mechanics' lien or materialmen's lien, must be completed and paid for, and all mechanics' liens, and any other liens and claims that could become liens relating to the construction must be satisfied before the loan is closed with Homebridge. Homebridge will retain the appraiser's certificate of completion and a photograph of the completed property in the loan file. When a construction-to-perm mortgage loan provides funds for acquisition or refinancing of an unimproved lot and the construction of a residence on the loan, Homebridge will retain a certificate of occupancy or an equivalent from the applicable government authority. - Units in a condo project are not eligible for construction-to-permanent financing. Two-Closing Transactions - The first closing is to obtain the interim construction financing (and may include the purchase of the lot). Construction financing is not eligible through Homebridge. - The second closing (aka "end" loan) is to obtain the permanent financing upon completion of the improvements and is eligible through Homebridge. - A modification may not be used to update the original Note; a new Note must be completed and signed by the borrowers. - The borrower is underwritten based on the terms of the permanent mortgage. - Transactions are subject to the limited cash-out and cash-out refinance maximum LTV/CLTV/HCLTV ratios, as applicable. - Cash-out refinance transactions require the borrower to have held legal title to the lot for at least 6 months prior to the closing of the permanent mortgage. - All other standard cash-out refinance eligibility and underwriting requirements apply
